

## FINAL PUBLIC NOTICE

Yancey County Government has applied for Federal Emergency Management Agency (FEMA) Public Assistance (PA) Program funding through the North Carolina State Emergency Management (NCEM) as a sub-recipient.

Under the National Environmental Policy Act (NEPA), federal actions must be reviewed and evaluated for feasible alternatives and for social, economic, historic, environmental, legal, and safety considerations. Under Executive Order (EO) 11988 and EO 11990, FEMA is required to consider alternatives, and to provide a public notice of any proposed actions in or affecting floodplains or wetlands. EO 12898 also requires FEMA to provide the opportunity for public participation in the planning process and to consider potential impacts to minority and low-income populations. This notice may also fulfill requirements under Section 106 of the National Historic Preservation Act (NHPA).

Funding for the proposed project will be conditional upon compliance with all applicable federal, tribal, state, and local laws, regulations, floodplain standards, permit requirements and conditions.

**Sub-Applicant:** Yancey County

**Project Title:** Yancey County-Cane River Park; PA-04-NC-4393-PW-00250(0)

### Locations of Proposed Work:

Facility	Address	Latitude	Longitude	Date of Construction
Cane River Park	258 Whittington Rd., Burnsville, NC 28714	35.914831	-82.385079	2009

### Special Flood Hazard Area Zone:

This project is for repairs to Cane River Park, which provides recreation sports, events, and physical exercise activities for the citizens of Yancey County. All work is located in an AE zone and floodway (1% Annual Chance Flood Hazard). Confirmation of location in a Special Flood Hazard Area (SFHA) was determined by the Yancey County Effective Flood Insurance Rate Map, Panel Number: #3700989000J, dated 6/02/2009. The proposed work conforms to all applicable State of North Carolina and local floodplain regulations. There is a potential for the facility to be impacted by future flooding events due to its location in the AE zone and floodway. The proposed work will not take place in wetlands per the United States Fish and Wildlife Service (USFWS) National Wetlands Inventory and will have little potential to impact or affect wetland values.

### Proposed Work and Purpose:

Yancey County is requesting funds to make in-kind repairs to park facilities, including athletic fields, exercise equipment, playground, fencing, and signs. The purpose of this project is to restore the facility for recreation and open-space use. A related project will provide minimization to further protect park

facilities from future flood damages.

**Project Alternatives:**

**Alternative #1** (No Action): The 'no action' alternative would result in a continued disruption of county recreation and could result in further damage to the park.

**Alternative #2** (Relocation): Relocation is not a practicable alternative because the damages are part of a larger park facility and the park facilitates open space and recreational use for the community.

**Comment Period:**

Comments are solicited from the public; local, state or federal agencies, and other interested parties in order to consider and evaluate the impacts of the proposed project. The comments should be made in writing and addressed to:
